MEMORANDUM

TO: Eric Smith
Chief of Police

VIA: Chain of Command

FROM: Lieutenant Tyler Olson
Emergency Services Unit Commander

SUBJECT: LETF Request for ESU Side-by-Side

The Orlando Police Department Emergency Services Unit (ESU) is frequently utilized during large scale events and disaster response. During these events, ESU is frequently tasked with conducting extra patrols to prevent crime from occurring.

During large scale pre-planned events, such as concerts and bowl games at Camping World Stadium, or the annual Independence Day fireworks at Lake Eola, ESU conducts patrols to prevent crime, such as burglaries, violent crime, and counter-drone detection. Due to the large number of people attending these types of events, the roadways are often closed and pedestrians fill the streets. In order to safely navigate these congested roadways, provide increased visibility to the public, and improve officer awareness to their surroundings, ESU requires a smaller profile, open-air style vehicle, such as a side-by-side.

ESU is also deployed in response to natural disasters, such as hurricanes. After a hurricane impacts our community, roads are often impassable to normal vehicles due to downed trees or flooding. In order to effectively conduct anti-looting patrols and hurricane recovery efforts, ESU requires an off-road capable, smaller profile vehicle, such as a side-by-side, to accomplish these missions and prevent crime from occurring.

Additionally, a trailer is required to safely transport this vehicle to different locations depending on the event and mission assignment.

After a review of available options, the Kawasaki Mule will meet these mission requirements. This vehicle, upfitting equipment, and a trailer will cost \$33,271. I am requesting the use of the Law Enforcement Trust Fund to purchase this vehicle. I have attached quotes from approved vendors.
