

MEMORANDUM

TO: David Billingsley, Chief Procurement Officer

FROM: Kevin Layne, SEM Manager

DATE: February 12, 2026

SUBJECT: Continuation of ESS Piggyback Term Contract

It has come to my attention that the piggyback term contract the City has been utilizing with Engineered Spray Solutions (ESS) has been renewed by Sarasota County. As a result, City Council approval is required to execute a new piggyback agreement with ESS in order to continue their services. The annual authorization is anticipated to be approximately \$3,000,000 per year until the WRD completes its wastewater collection system rehabilitation projects.
